

ND 3W LED

Inspection of surfaces

Areas of use:

- Inspection of surfaces
- Training of hand hygiene

Til brug i:

• Control of tools and machine components	• Pollution sources in clean rooms and laboratories
• Leakage control in components	• Control of cleaning quality
• Training and testing of hand hygiene	• Identification of risk areas

Description:

UVA lamps for inspection.

The light from a UVA lamp makes particles on a “clean” surface to light up.

The lamps can be used for all types of surfaces for leakage, contamination of particles.

- Pollution sources in clean rooms and laboratories
- Control of cleaning quality
- Identification of risk areas
- Leakage control in components
- Detect LCD-monitor errors
- Identify impurities in textiles
- Find surface defect in machine components

The lamps can be used with or without the use of fluorescent liquid/ powder.

The light highlights “invisible” pollution in sterile environments, surface contamination of items, such as spills, leaks etc.

It is recommended to wear goggles during use.

Technical data:

• Name	ND 3 W LED UV flashlight	• Length	150 mm
• Material	Aluminum	• Diameter	40 mm
• Color	Black	• Electrical info	3 W
• IP	66	• Light type	LED
• Weight	146 g	• Battery	Li-ion 18650
